

CN | EJ&E

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

Date: 8-27-08

I am very concerned about the safety of the residents and employees who work in Barrington. Emergency services would be greatly engaged. The safety of students walking to and from school who would cross the tracks everyday is very important to me. The possibility of an accident increases with the number of trains through Barrington.

Other concerns are the environment, water safety, noise pollution, and the decline of the business in Basingstoke!

Please do not allow CN to purchase ~~over~~ the EJ:E tracks.
