Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

STB Finance Docket No. 35087

Date: 8/27/08

I'm more concerned than ever about the impact on safety issues — getting to the hospital, Paramedic availability to reach call destinations, school emergencies —

At age 79, this is a very BIG concern —
One recent Sat at 9:30 AM traffic was backed up from
E/G/E tracks on W. Main St to Route 14 — while a
train passed — An increased length of trains will
tie the street even more & probably affect 2 or
more crossings.

This is not acceptable - We worked hard to get a hospital bed to not be able to get there

In addition, I've lived here 53 years & this "change" will ruin a caring community.
