Re: *Urgent Issues in Freight Rail Service – Railroad Reporting*, STB Docket Ex Parte No. 770 (Sub-No. 1)

Dear Ms. Brown:

In accordance with the Surface Transportation Board's May 1, 2023 Decision in the above-referenced docket, Norfolk Southern Railway Company provides the following bi-weekly update to its updated service recovery plan.

LOPA RR Caused	4.75%	5%

In accordance with the Surface Transportation Board's June 13, 2022 Decision in the above-referenced docket, Norfolk Southern Railway Company today is providing the following bi-weekly update on certain trainee information and crew availability.

The following table shows conductor trainee information as of July 25, 2023:

Trainees entered training	230
Trainees dropped out of training	110
Trainees completed training	81
Trainees currently in training	959

For the week ending July 21, 2023 Norfolk Southern's data shows that on average 73.94% of Norfolk Southern's total qualified T&E employees were available to work on a given day. Note however, the "available for work" number includes employees who work local or yard assignments who show as available on their scheduled rest day due to current technology limitations. Those employees are in fact not subject to call, meaning that they are on their scheduled rest day and are not in fact available for work. On average for the week ending July 21, 2023, 6.98% of those employees showing as "available" were in fact not subject to call, meaning that the average of qualified T&E available for work was in fact just 66.96% of total qualified T&E employees. That number fluctuated depending on the day of week, with Saturday having the lowest availability over the week. The following pie chart illustrates the key drivers of crew availability, which include FRA mandated rest, vacation, illness, and Family Medical Leave act absences, among others.

AVERAGE WEEKLY STATUS 7/15/2023 - 7/21/2023

Norfolk Southern will continue to update the Board on its progress toward service recovery on a bi-weekly basis.

Sincerely,

/s/ Hanna M. Chouest
