No other community along the E-J-E route will be as adversely affected as the Barrington area. I have lived here for 34 years and have seen traffic reach gridlock in a greater portion of the day each year. Already, commercial investment has been discouraged by the prospect of this project. In this weak economy, the value of homes will be devastated. As one of our speakers has said, why should ~~the~~ the Canadian National profit on the destruction of this area.

Steps can be taken to mitigate the effects of this move, and the CN should plan for that. This country has been totally raped by large corporations. It's time for Americans to take care of American people, not an influential few.
