Re: Murray-Calloway Economic Development Corporation
- Exempt Abandonment -
In Marshall and Calloway Counties, KY
STB Docket No. AB-1033 (X)

Dear Secretary Quinlan:

The Board's decisions served May 21, 2009 and July 10, 2009, imposed certain consultation requirements. This letter will confirm that the required consultations were completed by the end of July, prior to the commencement of any salvage of the line. The undersigned apologizes for the delay in filing this formal written notification of the completion of the consultation.

Applicant provided additional notice to NGS by email on May 28, 2009. No specific geodetic markers have been identified that would be affected by the proposed salvage. Further, Applicant's agreement with its contractor provides that if it locates any markers that would be affected by the salvage, such markers will not be disturbed until further notice can be provided to NGS.

On or about July 30, 2009, Applicant's contractor consulted with Patricia Coffey, Chief of Project Planning, US Army Corps of Engineers, Civil Works Office, 110 Ninth Ave S, Nashville, TN 37202-1070; 615-736-7865; patricia.coffey@usace.army.mil. Ms. Coffey also consulted with the Chief of the Western Section Regulatory Branch concerning the proposed salvage of the line. The Corps of Engineers concluded that it did not need to be further involved in the project, and that the Applicant could represent to the Board that the Corps had no objection to the salvage of the line.
