

Environmental Impact Statement

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

Date: 8/27/08

I am very concerned about the safety record of the CN Railroad. With their current record, there is a great worry for all the parents of a high school student going to the only high school in our town. What about the traffic concern of our high schoolers crossing the tracks on a number of times a day schedule, not including the after school activities?

[illegible]

Joliet
