Transcript:

I'm against the sale of the EJ&E Railroad. It's bad enough now in Plainfield when I'm leaving in the morning for work. There's been a few times, even now the EJ, when I've been late on account of long coal cars going through in the morning and it's gonna be even worse, and it's gonna be a hazard and danger to people here in Plainfield. So, we should not sell E&J. The only way that I'd be for it, is if they built overpasses on all the roads, which I doubt that would ever happen. Thank you
