Dear Mr. Navecky:

I would like to express my concerns over the proposed Great Lakes Basin Transportation, LLC rail line project. Docket # 35952. I oppose the project and ask the Surface Transportation Board to deny the proposal. My concerns are:

I have numerous reasons why I think this rail line project would completely devastate all the areas and farms that it would come into contact with. Some of those reasons are personal and would not concern Mr. Patton, I'm sure. I am, though, extremely concerned about continually pouring concrete over prime farm soil. There is only so much rich growing soil on the Earth and when it's covered, it's gone. There will all this end and what will happen to food supply?
