

CN | EJ&E

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

Date: 8/27/2008

The acquisition of the ET & E by CN is absolutely not in the interest of the people who elect and fund the government entities who are approving this transaction. Why should the people, whom the government are elected to protect, being asked to pay for, directly or indirectly, any mitigation, decreased in social well being and safety? In essence, this has become a government ~~take~~ sanctioned ~~operation~~ taking from the American people ~~all~~ all for the profit of a foreign corporation. This acquisition should not be approved!
