Seems like Rails to Trails Conservancy is getting way too grabby, they are still trying to take railroad property here in Clinton County, Ohio that was abandoned 40 years ago. some of this is church parking lot for 30 years, much is farmland that has been farmed for 30+ years. I personally think this grab is illegal and unnecessary, the bike trail is 7 miles long with no chance of extending either way in the future. A total waste of 2 million tax dollars. RTTC needs to stop this land grab that they are all about, everywhere
