Message: I am concerned about the proposal that the Canadian National Railroad begin running frequent, lengthy trains through this developing community. The town of New Lenox has grown and I am among many other residents who travel from one side to the other, be it north to south or east to west several time every day. I do not feel that the transportation board is taking into consideration the upcoming construction projects, inevitable population growth and potential traffic issues due to the new 355 extension. If they disregard these issues, such irresponsibility could have effects that would be extremely damaging to this community
