I am writing to you as a concerned citizen about the sale of the E, J & E railroad to the Canadian National Railroad. I believe this would be a terrible mistake that would have a gigantic effect on the safety of our town. Currently there are 4.4 trains per day and if this sale is approved it will increase to 24.4 (and that is only a projection for the next 3 years) This railroad cuts through our town and crosses the main roads to all our safety services (Fire Dept. Police Dept, ambulances) It would increase hazardous waste form 21.2 carloads per day to 265.5 carloads per day. All our homeowners in Wayne are on well and septic which means if there was a hazardous accident we could very possibly be cut off of all our water supply. I as a concerned citizen am begging for you to lobby for us to put a stop to this sale to the Canadian Railroad. The environmental changes would be devastating to our community and surrounding communities.. Please help us.
