

Environmental Impact Statement

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

Date: 8/27/08

I want to register my concern that the proposed railroads & train increase in the Burnington area will severely impact everyday life for me + my family. Not only will it make daily to daily living hard - but it will impact the long term viability of the commerce, education and healthcare system that we worked and work so hard to be part of. Not to mention safety issues for our young children.

Please don't let this happen ~~to~~ to our town.

Madeleine
