Environmental Impact Statement

Comment Form

Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087

Date: 8.27.08

Comments must be submitted by September 30, 2008.

Please look at the impact the proposed CN would have on the storm water run off and resulting contamination to Hawley Lake in Barrington Hills. Increased train traffic will put our lake at risk. We have a history of monitoring our lake water and fish population. I am very concerned, because of proximity to the tracks, that our Hawley Lake will be negatively affected. This would directly affect our property value. Our largest asset after 30 years in Barrington, is our home. We will watch our future financial security diminish and go away. Who will give a Canadian Company the right to destroy our future and all we have worked for in our life time. Why would an American Board (STB) allow a foreign country to crush my future security.

YOUR INPUT IS IMPORTANT!
