How will CN's proposed acquisition of the EJ&E impact you?

I represent 140 homeowners as president of the Indian Creek Club Subdivision and we are very concerned about the proposed acquisition of the EJ&E trackage by CNR. The concern has to do with the environmental impacts it will have as well as quality of life concerns. This is because all of our major north south routes are under engineered and the impact of additional train traffic will cause traffic to back up even more. This will make it even more difficult to get to work, school and ~~and~~ really anywhere in the community. This will cause additional ^{air} pollution from idling cars and increase the risk of more accidents. I can go
