Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087

Date: 8/28/08

Comments must be submitted by September 30, 2008.

This railroad is behind my townhome and it already shakes because of the current rail traffic. If this goes thru - I am sure my home will be shaking all the times. I also have experienced problems with being able to get into my street because of train traffic. The value of my home will also decrease. (I am a nurse & do not have a large income so this can really effect my retirement).
