How will CN's proposed acquisition of the EJ&E impact you?

These trains go thru my back yard. My house value will drop 10-20% & this is part of our retirement.

Then there is the delay of emergency vehicles getting over the tracks which can create life threatening circumstances.

Also I have a very good friend that has had a business in Barrington for over 17 years & is now closing the store because ~~of the trains~~ Barrington is already so congested & with more trains the business will die for sure.

These will impact the school buses (LZDBR) & train will be unbearable on over crowded roads - will have endless backups.
