Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

Date: 8/27/08

The proposed acquisition would be a huge problem for our community in so many ways.

- ① The traffic situation would be a nightmare not only in downtown Barrington, but Lake Zurich as well. None of the crossings in downtown Barrington are built to accomodate

- (2) 15-20 trains a day
Safety issues - Canadian National has
a terrible record. tons of our kids
cross these tracks everyday as well
as the school buses. Also, emergency
vehicles will have a terrible time
getting through.

- (3) Once the acquisition occurs, what is to stop it from adding even more trains to this route.

Please vote NO to CN!
