Environmental Impact Statement

Comment Form

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

STB Finance Docket No. 35087

Date: 8-25-08

Comments must be submitted by September 30, 2008.

- ① When CN took over I C RR to enter into Chicago area, they had substantial expert estimates as to the transit times that would be available to handle their freight through the Chicago area. Why now do they feel they are entitled to improve their service at the expense of competing U. S. Railroads as well as those residing along the E C & E Railroad.
- As a former member of the Rail Industry with more than 47 service, most of which was in Marketing I'm well aware of traffic volume and transit time studies and feel the results of the CN's many studies should be made public to determine why such a dramatic change is not necessary.
- ② Since the greater portion of finances needed to provide over-passes and under-passes for safety, will have to be borne by the tax payers of Illinois, why is Representative Lipinski in favor of the taxpayers picking up the tab for hundreds of millions of dollars to be spent. I would like to hear Mr. Lipinski's thoughts on his favoritism.
