Ref- STB Finance Docket No 35087

I am writing in regards to Canadian Railroad's plan of purchasing E J & N railroad track.

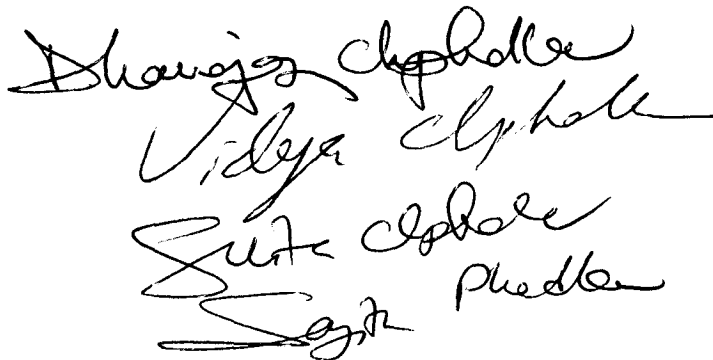

I am a resident of Barrington community and I believe that the CN plan of running 20 super long trains per day on E J track is a real safety issue. There is heavy traffic on Lake Cook road and Northwest highway. These main roads will be blacked for the trains to pass. This will create a huge backups on these main roads causing traffic toes ups and accidents as people get desperate to cross the railroad.

I am sure you are aware of these situations and even one fatal accident is NOT worth of providing PROFITS to a FOREIGN company.

I sincerely urge you to reject this plan.

Regards
