I'm only a 15-year-old, here at BHS, but from what I've heard about this, its a completely insane plan. Barrington is cut off by train tracks at 7 places- traffic is slow enough as it is and our town will be devastated by all this freight traffic. We don't have the funds to create overpasses and underpasses to create smoother flowing traffic around these tracks everywhere.

I don't see how these trains are going to help our town they'll only hurt us. Barrington gets a ton of its cash flow from shopping- no one is going to want to sit at a gate for 10+ minutes like 30x a day to wait to go shopping!

This is a rude heartless plan not valuing our town or any towns affected and it seems to me like CN needs to consider the repercussions of their little scheme and decide accordingly what the right plan of action will be.

Barrington isn't going down w/o a fight.
