Environmental Impact Statement

Comment Form

Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087

Date: 8/27/08

Comments must be submitted by September 30, 2008.

DANGER!

My school age children cross the train tracks ~~twice~~ a day due to the proximity of RR crossing to Barrington schools. Increasing the number of trains on these tracks not only mess with schedules but increase the chances of catastrophes occurring - train with car/bus/child. What happens to quality of life?

Delays in emergency vehicles (ambulance, fire, police) ~~is a danger~~ would be a given as trains are longer than the 1mi. from Lake Zurich Rd to Lake-Cook Rd. ^{THIS MEANS} ~~meaning~~ that there would be NO way around. Seconds of delay result in loss of life. What will minutes of delay every day mean?

Aren't there alternatives?

CN's safety record is not exemplary. Are there plans in place for derailments or hazardous material recovery/resolution. What happens to our wells? and if something bad happens - what do we do for drinking water!

What impact will idling car exhaust have on our environment? (Vehicle traffic counts in the study are flawed!)

YOUR INPUT IS IMPORTANT!
