- What ~~or the statistical~~ is the statistical average (or formula) of # of trains to auto accidents? It seems logical that the increase of 20 trains per day will result in additional accidents & even fatalities.

What is the financial health of EJ&E railroad? - What will happen if (when) CN purchase does not go through?

There are plans for a passenger commuter rail - Star Line - How will this impact this project?

I am very concerned about the money and pressure that CN may exert on STB to influence the decision. In my business we take code of conduct & ethics classes. We are forbidden to accept anything of value. This should be the case with the STB.

What scoping meeting did you attend? (Please circle): Mundelein, Barrington, Joliet, Matteson, Gary, West Chicago, Chicago.
