Docket # FD 35452

Dear Sir,

In regards to the proposed GLBT's rail line through Rock County WI the hardships due to disrupted farming along the route please reconsider and change to another area. There are disbanding rail lines that can be refurbished and put to use without taking up new land.

Our emergency services will be even more difficult than they are now. What if there is an accident on the rail lines who cleans it up. What about spillage of oil and chemicals that will be even more land taken out of production. More live stock and wildlife put in harms way.

Please rethink this and leave Rock County, Rock Prairie, and Bradford, Johnston and Lima Townships out of GLBT's plans.

Thank you
 Judi Urban
