Environmental Impact Statement

Comment Form

Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087

Date: 8/27/08

Comments must be submitted by September 30, 2008.

The impact study is incomplete. CN will totally have a negative impact on our communities + children.

Why can't CN limit their train length? Why can't they PAY for Overpasses? If the transaction is so needed + beneficial, Make them pay to keep U.S. citizens SAFE from harm and keep our traffic flowing.

We will not be able to get around our communities. Our children will be affected from making multiple crossings (over 230) - missed education, dangerous/deadly run in with trains, and risk of hazardous material accidents.

Our communities will be ruined. Our home values will substantial decrease. There will be more pollution. There will be more traffic congestion and our lengthened emergency response time will have deadly consequences.

This company is Canadian and is harmfully affecting the American US taxpayers. How wrong is that?

The decrease in train traffic in other areas is not guaranteed so why are we allowing this? ~~so~~ ~~is~~ ~~it~~

YOUR INPUT IS IMPORTANT!
