How will CN's proposed acquisition of the EJ&E impact you?

- 1) I have significant safety concerns in regards to public services (police, fire dept., ambulances) being dramatically slowed in response time.
- 2) I have significant concerns for safety of the general public due to increased flow of dangerous cargo into and through a highly populated area. I am also concerned with public safety in relation to vehicle and pedestrian traffic.
- 3) I am very concerned about my property values and the value of all properties near the railroad.
- 4) The increase in rail traffic will undoubtedly affect my families quality of life with a dramatic increase in noise, pollution and vibration to our home
