Dear Mr. Navecky:

I would like to express my concerns over the proposed Great Lakes Basin Transportation, LLC rail line project. Docket # 35952. I oppose the project and ask the Surface Transportation Board to deny the proposal. My concerns are:

A very big concern and disadvantage for our
farm is the fact that when the R.R. dissects our field
during construction, more than likely, they will break
our field tiles causing water to pond on our farm +
therefore flooding our farmland + adjacent landowners
water will run off into our ponding field.

Also our land will de-value in price

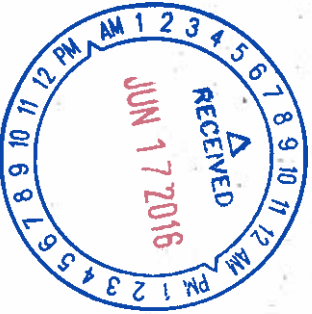

Please keep this R.R. away from Porter County, Hebron, IN
