Subject Re: Fw: FS comments on visual effects analysis report for
DME by STB 📎

Misty,

Thank you for submitting the comments. I am copying the WY and SD SHPOs here to ensure that they both receive a copy of your comments.

I kindly request that you submit comments you may have on the other reports immediately as the due date is well past. We have been advised by the SHPOs that they will not begin their formal reviews until they receive comments from other consulting parties.

All the Best,
Catherine Glidden

Catherine, please accept the Forest Service comments on the Visual effects analysis report for the DM&E project. Please accept our apologies for the delay in getting them to you. We will be sending you our comments on the other reports as soon as we can. If you have any questions, please contact me or Ian Ritchie.

Subject FS comments on visual effects analysis report for DME by STB

Misty,

This is the first of several report comments that were due to STB near the end on December. I missed the deadline as the end of the year approached and it overlapped with my year-end leave. Also, these multiple reports are large and complex and were submitted simultaneously. Each one takes serious effort to review.

These should go to Catherine at STB with my apologies for lateness: Catherine.Glidden@stb.dot.gov

I'll get the next sets of comments out as I can (Geomorph/Geoarch, Deeply buried site ID, and 2 SD counties).

Thanks,

Ian visualAssessmentfsCommentsJan2010.doc
