RE: Small Shipper Council

To Whom It May Concern:

My name is Pat Kennedy and I work with American Track. We are a nationwide railroad services company. We perform engineering, design build, inspections, maintenance, shifting and transloading for private industry rail users.

We have been working with Lee Shelly and H&K Group for the past at least 20 years. We have worked at their Birdsboro, Pa, Douglassville, Pa, and Dagsboro, De sites performing inspections and maintenance.

I work at about 400 different rail served industries, each with their own unique requirements. H&K Group as a quarry operation is focused on volume and velocity. They move large tonnage by a large number of railcars.

Lee Shelly is an individual, as a customer of mine, that has set himself apart from most. He is extremely intelligent. He has leveraged technology to streamline H&K's rail operation and increased output by large numbers in the past few years.

Lee is a problem solver. He understands the nature of railroad thoroughly. Lee also goes out of his way to help others that ship by rail with guidance in an unselfish manner. Lee would be a tremendous asset to your council.

Thanks for your consideration of this recommendation and if you have any questions I can be reached at 717-773-7435 or pkennedy@americantrack.com

Thanks again.

Pat Kennedy
