How will CN's proposed acquisition of the EJ&E impact you?

While it would be easy and justified to focus on the negative impact the acquisition would directly have on traffic, risk to pedestrians, and the environment the local officials need to consider why many of us in the impacted areas of Hawthorn Woods located to the area ^{there} High taxes can be justified by the quality of the location. ~~there~~ The quiet and "down-home" feel make it worthwhile. An impact not so easily seen would be departure of residents from the area ~~there~~. A daily confrontation with noise, pollution, and risk to my 3 children is of high enough magnitude to consider a move out of the area ~~altogether~~. This once desirable area would become significantly less appealing to many. You may loose more than support, you will loose residents themselves.
