

Environmental Impact Statement

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

Date: 8/27/08

with 3 teenagers driving they have already been blocked from our home due to the increased rail traffic.

This is a huge concern for us that we will be blocked from parts of Barrington due to CN's acquisition.

We have a wonderful quality of life in Birmingham that will be severely impacted by more trains.

I already know of youths that have been struck & killed by trains in the last 10 years.

Phase NO MORE TRAINS!
