Re: Finance Docket 36496

To the Surface Transportation Board:

The American Association of Private Railroad Car Owners strongly supports efforts to expand intercity passenger rail service in the U.S. and appreciates that this is a priority of the Biden Administration. In particular, we believe that the long-anticipated, twice-daily New Orleans-Mobile service will fill an important void in Amtrak's network.

Thank you for considering our views.

Sincerely yours,

Tony Marchiando, President

American Association of Private Railroad Car Owners, Inc.

I certify that I have this 11th day of March, 2022, served copies of this document upon all parties of record in this proceeding by email (except, first-class mail to parties whose emails are not shown on the Service List).

Ross Capon, Washington Representative

American Association of Private Railroad Car Owners
