Hi again, Deseray. I wanted to get back with you about this case as well. The plans for this abandoned segment of rail line was for the applicant to remove the tracks and ties and then once abandoned, the segment would be put into trails use. There was no plan for any subsurface construction or disturbance. Thus there would have been no potential for impacts to archaeological resources as there was to be no construction. I am not sure the current status of the segment or if the ROW has been converted into a trail yet. Hope this answers your question. If you need additional information, please let me know. Thanks.

Subject: STB, Docket No. AB 1319X, City Utilities of Springfield - Abandonment Exemption, Greene County, Missouri
Importance: High

Good Morning,

I was looking through a number of STB projects including the above abandonment exemption. According to my records the Osage Nation Historic Preservation Office has not received a response to a formal letter we sent on April 1st of last year. A status update on the project as a whole along with a response to our April 1st, 2022 letter would be greatly appreciated.

Thank you,
