ENTERED  
Office of Proceedings  
May 24, 2017  
Part of  
Public Record

I am very opposed to GLB building a railroad anywhere and especially through Winnebago County. There is no need for a railroad, and acres of prime farmland will be taken. So many safety issues for emergency vehicles, farm equipment, and the environment. There will be additional costs to the taxpayers for crossings and/or overpasses. I cannot believe that GLB can be allowed to do this in the United States of America. It is not right! Please do not let this happen. Sincerely, Margaret Johnson
