Dear Mr. Navecky:

I would like to express my concerns over the proposed Great Lakes Basin Transportation, LLC rail line project. Docket # 35952. I oppose the project and ask the Surface Transportation Board to deny the proposal. My concerns are:

Drainage systems will be affected. Tile lines  
will be crushed and when the natural grade of  
the land is changed, ponds and wetlands will  
be created. Stream banks, drainage ditches and  
creeks will be altered causing flooding with  
large rain events. Some farmland would no  
longer be tillable.

Respectfully Submitted
