Subject Docket 35087

I do not feel that this is going to be good for the residence that live near the rail line. From all that I have seen, this deal will increase the flow of rail traffic over the line with longer trains that delay our ability to cross over the track. As it is, I get caught by the train about every other day and sometimes have to wait 10 minutes for the slower moving one to pass.

There are currently only three overpasses that are not affected by the trains, however, they are 7.5 miles, 8 miles and 12 miles out of the way. Having even longer trains over this line without more overpasses in the southern part of Aurora and northern part of Plainfield is totally unacceptable! No one would be able to cross from south of McCoy drive all the way past Route 30's crossing. This is the equivalent of 55th street south to 153rd street.

Please reconsider approving this deal!

Don Howard
Aurora, IL
