Dear Sir,

I'm writing to voice my objection to the sale of the E. J. & E railroad. We have lived on Gaylord Rd. 3 houses south of Division St. in Will County for over 20 years. We've watched our neighborhood go from tar & chip roads and cornfields. When we moved out here in 1985 there were about 17 houses on the south side of Division St. from the E. J. & E tracks, down the west side of Gaylord Road to the E. J. & E tracks.

We have watched cornfields turn into subdivisions, our roads go to 4 lanes and a mile long truck warehouse directly across the street from the front of our house. We have put up with all of this with very few complaints, except to one another.

This railroad sale is a different story. To get anywhere we want to go we need to cross one of the two sets of tracks we live between. We are across the tracks from the Joy-R-U warehouse, that means we will have the largest increase in trains.

one about every 32 minutes. We do not want to listen to train whistles or try to beat the trains across the tracks.

Please take common people that have been here for years into consideration before you make a deal.

I would like to hear from you.

Thank you
Joyce Probus
