Dear Mr Navecky,

This letter is to provide comment on the proposed Great Lakes Basin Project and how it will negatively affect the land our family has owned since 1971. We own 160 acres of land in the Essex township. The current proposed plan would pass through our land and disrupt the water flow in our creek not to mention dividing our land making the farming more difficult. This is prime farmland that would be devalued by the intersecting of the railway system. The parcel # 09-22-400-002 and parcel # 09-27-200-002 are located in Kankakee County . This land is owned by our family's sub-S corporation, Three D Farms, Inc. and managed by the First Financial Farm Department in Pontiac, Illinois. As President of Three D Farms, I, Diane C. Cordes wish to add my comments to the board studying the impact of the Great Lakes Basin Project. I am against the project as it currently stands.

Thank you for considering my viewpoint.
