

Town of Bradford
Rock County, Wisconsin

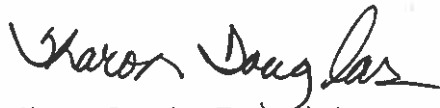

April 11, 2016

To: Surface Transportation Board
Docket No. FD 35952

The Town of Bradford is requesting the Surface Transportation Board grant an additional 60 days to comment on the proposal regarding the Great Lakes Basin Project. So, instead of a June 15, 2016 deadline we are requesting an August 16, 2016 deadline.

This extended deadline would assure that the public and all interested parties would be allowed ample time to comment on the proposed rail line, and environmental issues and concerns due to the extensive scope of the proposed construction.

Thank you for this consideration
