15247

to: Federal Surface Transportation Board

I stand in opposition to the proposed acquisition for the following reasons:

1. Significant vehicle delays at ~~road~~ crossings on our already congested road.
2. Safety of the crossings plus emergency response time for fire trucks and ambulances.
3. pollution and noise
4. Neighboring cities and villages use our road to go to and from work, school, etc.
5. I personally cannot get into Plainfield without crossing a railroad track.

yours truly,

Barbara J. Smith
