How will CN's proposed acquisition of the EJ&E impact you?

MY five children and I will spend massive amounts
of time waiting for trains. They participate in
baseball, lacrosse, football, church and library activities.
We cross the tracks for all of these. With a myriad of
schedules we expect to waste time, fuel, money and
undue stress if the rail plan goes through. There are
five intersections that will back up traffic into
major state arteries. We do not possess the
resources to deal with expected problems. Even
if funds raised from the railroad our town would
be destroyed by overpasses etc. Do not
allow this sale to be approved.
