Message:

I am a former east aurora township resident. Weather we live near train tracks or not we are all effected by them. If we are honest with ourselves we know the rails exist and they should and will be used. We need to embrace the growth they can give us. We all know that the cost of transportation is rising. This is just one way we can transport faster well holding the cost low. It should also create more jobs. I understand people will have to leave earlier and return later. This is one of the short comings of progress. Our goal should be to count our blessing that we have a job, some place to go and a home to come home to. In closing I would like to quote from the movie: It Is a Wonderful Life. (What are the three most exciting sounds in the world? Anchor Chains, Plane Motors,and TRAIN WHISTLES).
