I'm against the CNN acquisition of the EJ&E. I think it's gonna cause too many problems in our area and the areas along the railways. We can't have that kind of traffic going down there, being that we are so populated in this area ourselves, we need the roads, we need to get across, we need to be able to get across the railroads, and I just think this is a bad idea all the way around. My current phone number is 815-436-7020. If anyone wants to call me back, I can talk to them then. Thank you
