Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087

Date: 8/27/08

Comments must be submitted by September 30, 2008.

The increase in the number and size of trains will be a major disruption to the Barrington area villages. Unfortunately, there is absolutely no benefit. Traffic congestion will increase. Emergency vehicles will be delayed in responding. Noise levels will increase greatly interrupting the lives of people living near tracks. In short, there is no advantage to the community and only advantage to a foreign corporation. Why not use some of the unused tracks in Chicago?
