Transcript:

I'm calling for my opposition to this purchase because, one of many reasons, one is because it would be a hazard to us if there was an emergency. We have a brand new fire station and they would be unable to reach us in an emergency. Secondly, we have very many children that go to school and frequent trains coming through would also impact them arriving to school on time. There are several other reasons. I can go over them if you'd like to call me back. Thank you very much. Bye. Phone Number: 630-823-7752
