Environmental Impact Statement

Comment Form

Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087

Date: Aug 27, 2008

Comments must be submitted by September 30, 2008.

As a resident of the Barrington community I am extremely concerned about the increase of train traffic in my community. I am worried about the safety issues that increased traffic on these tracks will cause, particularly for children, emergency vehicles, the environment, increased pollution. Other concerns include increased noise pollution, effects on the commuter rails (which I take into the city daily), ~~increased~~ increased traffic issues related to loss of community integrity - (ex: effects on town parades, ~~observed~~ festivals) and property values. These are but a few (of many) problems that increasing this railroad traffic would cause.

Thank You -
Mary Elizabeth Glass
