To the attention of: STB Finance Docket N 35087

We would like to let Surface Transportation Board know that we are very much against the proposed acquisition of the Elgin, Joliet and Eastern Railway company from the Canadian National Railway. The first reason is for the public safety, in case of an emergency in West, in our subdivision, it would be a big problem for the ambulance to be stuck at the track and get not be able to get through and get there on time.

And the other problem is Traffic, already right now we face a big problem with Traffic, imagine if the proposal goes through and having 20 Trains getting by how much more Traffic we are going to face. This is a very bad idea!! No! No! No!
