Sirs:

I am writing to say that I oppose
the Proposed Great Basin Railroad project.
I have major concerns for the following,

1. Many unprotected rural rail crossings
2. Many delays for 1st responders
3. Delays for police
4. Change drainage patterns
5. Effect on Farm Tile systems
6. Grounding Noise Pollution
7. Effect on Traffic on our roads
8. Finally the negative effect on agriculture
+ the taking of several thousand acres of
prime farm land

I very much hope that you will
stop this project before it begins.

I thank you

Fred G. Scheppler
