Mr. Blodgett,

After reviewing the available information about the proposed Great Lakes Basin (GLB) rail project, it is my opinion that the proposed GLB project has failed to sufficiently provide documentation that supports public convenience and necessity. For the following reasons I respectfully request that the STB cease any further action on this project.

contamination

noise

odors

family farms & income ruined

not safe for future generations

land value goes down

nice, peaceful family environment gone

Business loose money

The above provided information is what led me to the conclusion that the proposed GLB project is inconsistent with the public convenience and necessity. It was insufficiently vetted before starting the approval process. I respectfully request that the STB takes "no action" on this project.
