Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

STB Finance Docket No. 35087

Date: 8-28-8

Comments must be submitted by September 30, 2008.

I feel that a small increase in train traffic would not be unreasonable.
I am not an unreasonable person
However, that being said —
this is an outrage — to jam all this traffic on this small line would destroy many communities and the traffic patterns
Not to mention SAFETY issues — explosions and hazardous waste that inevitably will be spilled — and the safety regarding the transportation of patients to hospitals and emergency responsibilities.
